

facets of virtual environments pdf

A virtual learning environment (VLE) is a system that creates an environment designed to facilitate teachers' management of educational courses for their students, especially a system using computer hardware and software, which involves distance learning. In North America, a virtual learning environment is often referred to as a "learning management system" (LMS).

History of virtual learning environments - Wikipedia

A virtual workplace is a workplace that is not located in any one physical space. It is usually in a network of several workplaces technologically connected (via a private network or the Internet) without regard to geographic boundaries. Employees are thus able to interact in a Collaborative Working Environment regardless of where they are located. A virtual workplace integrates hardware ...

Language@Internet , 4 , article 1 (2007) - This article describes a classification scheme for computer-mediated discourse that classifies samples in terms of clusters of features, or "facets". The goal of the scheme is to synthesize and articulate aspects of technical and social context that influence discourse usage in CMC environments.

A Faceted Classification Scheme for Computer-Mediated
