DOWNLOAD POLICY ROUTING USING LINUX

policy routing using linux pdf

In computer networking, policy-based routing (PBR) is a technique used to make routing decisions based on policies set by the network administrator.. When a router receives a packet it normally decides where to forward it based on the destination address in the packet, which is then used to look up an entry in a routing table.However, in some cases, there may be a need to forward the packet ...

In this article we will focus exclusively on setting up the routing table on our RHEL 7 box to make sure that it can both access the Internet through router #1 and the internal network via router #2.. In RHEL 7, you will use the ip command to configure and show devices and routing using the command line. These changes can take effect immediately on a running system but since they are not ...
