Introducing the ICC/NSSA Standard for Design and

WBDG is a gateway to up-to-date information on integrated 'whole building' design techniques and technologies. The goal of 'Whole Building' Design is to create a successful high-performance building by applying an integrated design and team approach to the project during the planning and programming phases.

Front Matter (Title Page, TOC, Preface and Forward) Referenced Standards. The IPC provides minimum regulations for plumbing facilities in terms of both performance and prescriptive objectives, and provides for the acceptance of new and innovative products, materials, and systems.

2018 International Plumbing Code® - iccsafe.org

Plumbing is any system that conveys fluids for a wide range of applications. Plumbing uses pipes, valves, plumbing fixtures, tanks, and other apparatuses to convey fluids. Heating and cooling (HVAC), waste removal, and potable water delivery are among the most common uses for plumbing, but it is not limited to these applications. The word derives from the Latin for lead, plumbum, as the first ...

This Manual establishes a formal system of drawing requirements for LANL personnel and its subcontractors for nuclear and non-nuclear facilities. It is required when creating or modifying drawings and sketches for LANL facility, utility, infrastructure, and environmental programs projects. Its use is recommended for programmatic work, where appropriate.

AAA CE4135 ver2 - Civil Engineering

Within industry, piping is a system of pipes used to convey fluids (liquids and gases) from one location to another. The engineering discipline of piping design studies the efficient transport of fluid.. Industrial process piping (and accompanying in-line components) can be manufactured from wood, fiberglass, glass, steel, aluminum, plastic, copper, and concrete.
