the flail swing the pdf

The term flail refers to two different weapons: a long, two-handed infantry weapon with a cylindrical head, and a shorter weapon with a round metal striking head. The defining characteristic of both is that they involve a separate striking head attached to a handle by a flexible rope, strap, or chain.

Flail (weapon) - Wikipedia

The origin of the nunchaku is unclear, although one popular belief is that nunchaku was originally a short South-East Asian flail used to thresh rice or soybeans. This gave rise to the theory that it was originally developed by an Okinawan horse bit (muge), or that it was adapted from a wooden clapper called hyoshiki carried by the village night watch, made of two blocks of wood joined by a cord.
